

Franklin Bridge Underpass Reduced to One Lane Traffic Sunday, November 12

by Bend Weekly News Sources

The Franklin Bridge Underpass will be reduced to one lane of traffic on Sunday, November 12 between 6 a.m. and noon to allow maintenance work to be performed on the stormwater system. The affected area is between Third and Harriman Streets on NW Franklin Avenue.

According to Kevin Ramsey, Assistant Streets Supervisor with the City of Bend, only one lane of traffic will be open, and one direction of traffic will be allowed to move forward at a time.

Flaggers will be in place to maintain and control traffic throughout the work zone, added Ramsey.
