

Deschutes County community survey results give high ratings to employees

by Bend_Weekly_News_Sources

BEND, Ore. - Deschutes County employees received high marks in a recent community survey completed by 400 County residents. The survey asked citizen their thoughts about the quality of life in Deschutes County, County services, customer service, public safety, communication and other subjects.

Deschutes County employees were rated favorably; with four in five residents who had been in contact with the County saying their overall impression was "excellent" or "good." Residents rated the courtesy of employees the highest; almost nine in ten said employee courtesy was "excellent" or "good." County employees received a high rating of over 80 percent as "excellent" or "good" in all six survey categories; courtesy, responsiveness, knowledge, availability, ability to answer questions and resolve problems, and overall (customer) impression.

According to the report, residents were most pleased with the job the County does at listening to resident input. Residents also rated individual County services with the Deschutes County Fair and Expo Center as the top-rated service. 81% of respondents rated the Fair and Expo Center as "excellent" or "good."

Overwhelmingly, residents in Deschutes County responded that they feel safe in their neighborhoods and were confident in the ability of the County's public safety departments in the case of a major emergency. Drug related issues and a lack of jail beds were considered the biggest public safety issues noted by survey participants.

Leadership and listening to resident input were the highest rated public trust questions, with each being rated as “excellent” or “good” by 48 percent of those surveyed.

During the survey, residents were asked what they believed to be the most important issue facing the County in the next two years. The most common answer was growth (the choice of 29 percent of respondents) with top issues rated below that item as; crime and jails, the economy and budget issues, an affordable housing shortage, and expansion and development.

Regarding the quality of County services provided, respondents rated the following departments or services:
