

Overturn unjust prison sentence of Border Guards

by Robin Hvidston - Upland, CA

I read the editorial on the Bend Weekly web site: "We need compassion for our border guards."

This excellent editorial should be read by every American to inform them of the utter miscarriage of justice in the trial of the Border Patrol Agents Ramos and Compean.

This case is upside down where the heroes are going to jail and the criminal roams the streets free. I call and write to elected officials, the attorney general and the president EVERY DAY to over turn this false sentence of the two heroes!

We the people cannot let these two protectors of this nation go to prison! It is like the Twilight Zone!
