(PRNewsFoto/D'Orazio & Associates for Bochic) Always setting trends rather than following one, Angelina Jolie lit up the red carpet at yesterday's Golden Globe Awards in Bochic jewelry that was worlds away from the collections worn by other leading ladies on this special evening. Looking radiant in a charcoal grey St. John gown, she wore a vintage-style uncut diamond necklace, earrings and bangles set in 22kt yellow gold by Bochic from the D'Orazio & Associates showroom.

Inspired by Indian jewelry from centuries past, the pieces Jolie selected were crafted by Bochic artisans using skills passed down over generations. Each piece of jewelry created by Bochic is the result of many hundreds of hours and results in beautiful jewelry that almost feels alive. The fact that stars of Ms. Jolie's caliber are taking notice is a testament to the care that goes into their design and construction.

Bochic worked with top fashion stylist Jen Rade, who assisted Angelina in creating the perfect look for her Golden Globes appearance. Rade has collaborated closely with Jolie for three years, and she clearly had her recent visit to India firmly in mind when selecting pieces for one of Hollywood's biggest nights.
