The OSAC scholarship program enables students of all ages to apply for many different scholarships through a single, "unified" application. Scholarship donors determine the criteria for who is awarded and where the scholarship may be used. Most are for Oregon residents entering or returning to various types of Oregon colleges in the fall of 2007. Some are open to out-of-state students and many may be used at eligible colleges throughout the United States.

The Oregon Student Assistance Commission is the state agency that partners with numerous private donors, the Oregon Community Foundation, The Ford Family Foundation, and financial institutions to administer more than 340 private scholarship programs for Oregon students. This statewide public/private partnership model is unique in the nation. The agency also manages the Oregon Opportunity Grant and other financial aid programs for specific student populations.
