

Integra buying Eschelon; company that acquired Bend's Unicom

by Bend_Weekly_News_Sources

The Minnesota company that announced last month it was buying Bend-based Unicom for \$13.9 million is now being acquired by Portland's Integra Telecom, Inc.

Integra Telecom, Inc., a provider of local, long-distance and Internet services for businesses, today announced that it has signed a definitive agreement to purchase Eschelon Telecom, Inc. (NASDAQ: ESCH). The transaction is expected to close during the third quarter of 2007 upon obtaining necessary governmental and shareholder approvals. Upon closing, Eschelon will no longer be publicly held and operate under Integra Telecom, Inc., which will continue to be privately held and operated. The combination will yield one of the largest competitive local exchange carriers (CLEC) in the nation. Total company revenues are predicted to be more than \$700 million annually with more than \$200 million in pro-forma 2007 EBITDA (earnings before interest, taxes, depreciation and amortization).

Integra and Eschelon have each successfully focused on the business market for more than 10 years. "The combined companies are expected to create one of the most established, cash profitable CLECs, insuring long term continuity and superior service for the customers and employees of both companies," said Dudley Slater, CEO of Integra Telecom. The combined company will be able to provide Eschelon and Integra customers with expanded product offerings including business telephone systems and powerful high-bandwidth products available on Integra's fiber optic intra and intercity networks.

"Both companies have an excellent reputation in meeting the needs of their customers," added Richard A. Smith, president and CEO for Eschelon. "The market position and financial strength resulting from this combination well positions the customers and employees of both companies for the future." Upon closing, Richard A. Smith will join Integra Telecom's Board of Directors.

Upon completion of the transaction, Integra will serve an average of 20 percent of the businesses in the metropolitan areas in which it operates in 11 Western and Midwestern states. The integration of the two businesses is expected to generate substantial operating and network cost savings as nearly 80 percent of each company's revenues derive from overlapping geographic markets. Much of Eschelon's traffic, which was previously routed over leased facilities from other carriers, will now be routed over Integra's extensive metropolitan area and intercity fiber networks.

Under the terms of the agreement, Integra will purchase Eschelon Telecom for \$30 per share or an aggregated purchase price of \$710 million, including the repayment of approximately \$144 million in Eschelon debt. Integra will fund the purchase and the refinancing of its existing debt with \$1.2 billion in new capital, including i) senior secured debt facilities to be placed by Deutsche Bank Securities and Morgan Stanley Senior Funding, Inc. as Joint Lead Arrangers and CIBC as Co-Agent, and ii) senior notes to be placed by Deutsche Bank Securities with CIBC acting as lead manager. Integra was advised by Deutsche Bank Securities with legal counsel provided by PerkinsCoie LLP.

Integra's Record of Financial and Integration Success

In early 2003, Integra became the first facilities-based CLEC in the 14-state Qwest Communications service territory to be cash profitable - a key indicator of a business's health. In August 2006 Integra completed the \$243 million purchase of Electric Lightwave from Citizens Communications and has successfully transitioned those customers to Integra's industry-leading brand of customer service.

About Integra Telecom

Integra Telecom, Inc. provides voice, data and Internet communications to thousands of business and carrier customers in eight Western states, including: Arizona, California, Idaho, Minnesota, North Dakota, Oregon, Utah and Washington.
