

Head Start enrollment for 2007-08 school year begins

by Bend_Weekly_News_Sources

NeighborImpact's Head Start Program is dedicated to helping ensure that children ages 3 and 4 from low-income families are ready for school. The Head Start Program is now accepting applications for the 2007-2008 school year.

Head Start builds success for children through child focused, family-centered services that enhance social competence, school readiness and overall health and well-being. Children are provided a free high quality preschool education which includes individualized curriculum, nutritious meals, health and developmental screenings, and transportation.

Head Start Classes are available throughout Crook and Deschutes counties. Space is limited. It is important that families apply as soon as possible.

Download the application form [here](#).
